

Mirror Types

Plane Mirror

Typically used as a full-body mirror. Don't have a full body? You may still use this mirror with limited success.

Note: May be found on or off an airplane

Convex Mirror

A spherical mirror commonly used as a rear-view mirror. Objects in this mirror are smaller than they appear. If recently sideswiped. objects in this mirror may appear to disappear.

Honorable Mentions:

Concave Mirrors, Non-Reversing Mirrors, Silvered Mirrors, Two-Way Mirrors, & Others

Mirror Mirror on the wall

Is that a mirror in my stall?

Mirror Manual

In this manual, you'll develop the skills needed to operate a mirror.

Above you'll find an image of a mirror image of a mirror's image! Now isn't that a mirrocle?

Mirror Instructions

1. Get a mirror, as you'll need a mirror in order to use a mirror. You're now ready for step 2.
2. If this isn't a plane mirror, move on to step 3. If this is a plane mirror, you'll need to hang it somehow. As this is outside the scope of this manual, please master hanging and nails on your own time (ETA: 1 week)
3. Ensure the mirror is 180 degrees parallel to your eyes. Or put simply, ensure the mirror is 90 degrees perpendicular to your line of vision for ideal mirror optimization. Proceed to step 4 with confidence.
4. It's now time to glance at the image in the mirror. This may take a few tries. Be patient.
5. Confirm whether the mirror's reflection is still you. If not, confirm whether you're Simba. If not, congratulations! Return to step 4 or 1 until satisfied.

"There are two ways of spreading light: to be the candle or the mirror that reflects it."

-Edith Wharton

Mirror Best Practices

Some best practices go as follows:

- Dropping mirrors should be avoided when possible. They ARE fragile.
- Don't be shy around your mirror. No one's looking.
- Every mirror needs a frame. But every frame DOES NOT need a mirror. You'll thank me later for this wisdom.
- Treat mirrors how you'd like to be treated.

"Mirrors should think longer than before they reflect"

-Jean Cocteau

Convincing Testimonials

"Before using my mirror, I didn't know what to expect. Happy to say the mirror helped me find myself."

-Mirriam, A Proud Mirror Operator

"While I'm not ready to call myself mirror-savvy, this manual gave me newfound confidence to use mirrors!"

- An Anonymous Public Figure

FAQ

Q: Just went through a messy divorce. Are mirror frames flammable?

A: Yes.

Q: My mirror is transparent. How can this be?

A: It can't be. Please strongly consider whether your brain is transparent.

Q: All my gym buddies take pictures of their flexed muscles in the mirror. Can I participate even if I do not have muscles?

A: Yes, you may. Please consult the *Mirror Best Practices* section of this useful manual.

Q: The mirror I ordered came with so many cracks and blemishes. Will it be covered under a warranty?

A: Wish I could answer that for you.
